

## MACQUARIE - (Q-SMA) Marine Hose

The FHS Macquarie marine hose has been designed to meet the needs of a variety of applications. The smooth, sealed inner bore makes it ideal for liquid suction and light duty transfer. The raised helix increases flexibility while maintaining good vacuum capabilities. This product is popular as a bilge pump discharge hose and cable protection on a variety of marine craft. It is also used as a vent hose in LPG installations on motor vehicles. It's lightweight construction makes it a popular hose for small pumping applications such as pond pumps water recycling systems.

### FEATURES:

- Excellent Flexibility
- Smooth sealed inner bore
- UV Stabilized
- Temperature Range - (-5°C to + 60°C)
- Compound - Black PVC / Rigid PVC Helix
- Working pressures tested at 20°C.

### APPLICATIONS:

- Discharge hose for bilge pumps.
- General Purpose water, liquid and granular suction and low pressure delivery.
- Cable conduit.
- Dust extraction
- Pond Pumps.
- LPG vent systems.

Nominal ID	Nominal OD	Working Pressure	Vacuum Rating	Length
mm	mm	psi	mm Hg	m
20	24.5	100	-350	20
25	31	100	-350	20
28	34	100	-350	20
32	39	87	-350	20
38	45	58	-350	20
50	59	58	-350	20

All dimensions are nominal
